EW GRAND PRESIDENT DON McCLEARY HAS TANGETE: THREE AREAS OF EMPHASIS IN THE COMING YEARS

IN SIVE STALL

Our fraternity's annual report

From the Grand President

Course set to build on the fraternity experience

By Donald C. McCleary Texas '71 Grand President

Sigma Phi Epsilon must serve to enrich a man's college experience—to enrich the lives and values of its mem-

To that end, as chairman of our Na-tional Board of Directors, 1 see three areas for emphasis in programming for the coming two years:

ment Improvement of volunteer alumni

Building of self-confidence and

sulding of self-conhedene and self-esterm among undergraduates and volunteer shuma subsequence of the self-estern among undergraduates and volunteer shuma subsequence of the self-estern and self-estern between the self-estern and self-estern Dr. R. Eric Weise, Cincinnati '54, past Dr. R. Eric Weise, Cincinnati '54, past member of the Educational Founda-tion Board of Trustees Past Grad President and former Executive Vice President of 1BM Wallace C. Doud, Alumni Chairman, furthering the in-Alumni Chairman, furthering the im-portant work he started in building the ranks of alumni volunteer sup-

port.
Past Grand President Frank J.
Ruck Jr., Michigan '46, District Governor Roger H. VanHoozer, Washbura
'72, and Headquarters Executive Director Kenneth S. Maddox, Oregon
State '75, will coordinate efforts of the State 73, will coordinate efforts of the National Leadership Committee to in-corporate leadership programs for chapters to focus on strengthening self-esteem.

The programs

Our Sig Ep scholars must be honored. To Sig Ep, the campus aca-

demic environment must be extended demic environment must be extended -not stifled or extinguished. I am con-fident of our chapters' abilities to offer social programs. I am not confident, however, that scholastic achievement

enjoys equal emphasis.

Enriching the minds of our brothers is a top priority.

The opportunities of Sig Ep-aca-demic excellence, athletic competi-tion, leadership roles, self-confidence development, campus and community service, personnel management train-ing, and others—are most consistservice, personnel management training, and others—are most consistently valuable when there exists strong, local volunteer guidance We must assure the presence of dedicated, effective chapter counselors and alumni boards

Diveloping alumni involvement is a

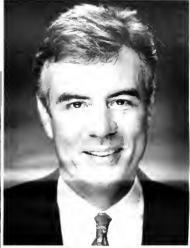

p priority Brotherly love is perhaps our most revered cardinal principle. People who master the ability to love others will also be the masters of their lives and careers. Care, tolerance and compascareers. Care, tolerance and compas-sion for others are unavailable with-out self-confidence. Self-confidence, brotherly love and spiritual, emo-tional and material success are insep-arable principles. The foundation is self-confidence. Sigma Phi Epsilon can and must lay that foundation.

Building self-confidence is a top pri-

Separate train cars

Separate train cars
In 1896, respected Supreme Court
Justice John Harlan wrote the dissenting opinion in the famous Plessy
w Ferguson decision. In that case, the
Court held that it was acceptable for
Louisiana to have separate railroad
cars for block people. Justice Harlan
brilliantly and courageously demonaced the majority's rulaing of

strong correlation between a chapter's size and its quality ranking on cam-

Our chapters' ability to make friends is the basis for outstanding rush programs across the country. Sig Ep led the way with dry (non-alco-

Sig Ep led the way with dry (non-alco-holic) rush on meny campuses this year to the praise of students and campus admissible alone. The resident of the California Pt Chapter at Stao-ford University: "Our dry rush has skyrocketed. We were the first frater-nity to go dry on campus, and the turnout at our rush functions was double that of other fraternities."

University officials were as pleased as unspiked nunch to hear of the new

"It sends a clear message that this is a group that is comfortable with what it is offering as a fraternity," said Stanford Fraternal Affairs Advisor Joe Pisano Some of the rush results for 1986-87:

San Diego State-58 pledges South Florida-53 pledges

Auburo University—51 pledges Soutbero Califoraia—44 pledges Tufts—30 pledges Mississippi—30 pledges

Making breakthroughs

☐ University of Mississippi (Dormant Mississippi Alpha chapter)—Reorganized last January after a 10-year absence, this 53-man chapter is living in a newly-renovated home on fraternity row. National Housing Corporation efforts, combined with local alumni support and Headquarters University of Mississippi (Dorgrown from 17 men to an impressive 82 men at the end of last term. Using an innovative rush and brotherhood development program, Michigan Beta recently won the Most Outstanding Fraternity on Campus award.

□ Ohio State University (Ohio Gemms)—From a manpower level of 28 io 1981. Ohio Gamma has steadily improved and will be a 100-man chapter by January. On a highly competitive campus of 32 fraternities, Sig Ep is also benefiting from a recently re-modeled chapter bouse. Increased

Officials were as pleased as unspiked punch to hear of the trend...

staff, have put us back in a competi-tive position at Ole Miss.

University of Alabama (Alabama

□ University of Alabama (Alabama Betal—Chapter membership) dwindled to seven men after the chapter house betaled to seven men after the chapter house and the control of t

poration were able to coordinate the purchase of an 80-man house for this fall.

Western Michigan University (Michigan Beta)—Facing problems as a relatively weak chapter on their campus in 1984, this chapter has alumni involvement is still being

☐ University of Richmond (Vir-ginia Alphe)—With a solid base of alumni support, this chapter has matured into one of the premier chapters on campus. Although the chapter was not experiencing trouble to pose con-cern, the Fraternity's Alpha chapter has excelled in a number of areas in recent years. Manpower has doubled since 1982, and Virginia Alpha is now the largest fraternity on campus with 101 men

Hitting roadblocks

There are occasionally chapters that have outstanding records of per-formance and operation, where someformance and operation, where some-thing has crept up to pose problems Sig Ep's chapter visitation program enables the Fraternity to identify and react swiftly to such situations

It is not like these chapters to experience such problems. Volunteers and staff are responding to help the under-graduates learn from their experience

graduates learn from their experience and strengthen the chapters.

Radford University (Virginia Nu)—After considerable damage to the chapter's living facility by Sig Epundergraduates, Radford University undergraduates, Hadford University administrators withdrew the chap-ter's housing privileges. A young chapter, with only a small alumni base from which to draw, Virginia Nu is working closely with the Headquar-

is working closely with the Headquar-ters staff.

Southern Metbodist Univer-sity (Texas Upsilon)—Non-competitive bousing cootinues to be a drawback for our SMU chapter. Chapter size is average for this 14 fraternity-system

average for this 14 fraternity-system campus. Local alumni are moving toward construction of a new bouse.

South Caroline Alpha—An openparty situation that caused demage to the university-owned bouse prompted the administrators to withprompted the administrators to with-draw pledging privilegres and revoke the chapter's housing privilegres. Chapter membership slipped from nearly 90 to 42 last year. Strong local alumni support and an impressive rusb this fall has our University of South Carolina Chapter back on its

Beat again.

Washington State (Washington Alpha)—Fire code violations have brought an eviction notice to the door of our Washington State University chapter house. Repeated warnings to conform to codes were not heeded by conform to codes were not needed by the chapter, resulting in this fall's move out of the house. Local alumni and Dis-trict Governor Roger VanHoozer, Wash-hurn '72, have mobilized to not only fix code violations, but renovate the house as well. Chapter members will live in a dormitors wing during the spring term while the house is under construction.

Housing report

Alumni involvement key to major housing ventures

Housing Director

Alumni boards across the country ave spent more than \$3 million this past year to purchase or improve Sigma Phi Epsilon chapter houses.

Due to the dedicated support of alumni who contribute their time and adumn who contribute their time and talents at the chapter level. Sigma Phi Epsilon has more than 204 chapter bousing facilities. No other fraternity can make that claim. These alumni ne gotiate with realtors, universities, and They design chapter houses,

bams Bets), the alumni board brought together the resources to construct a beautiful southern style construct a beautiful southern-style mansion that will house 48 brothers The \$765,000 structure will be com-pleted in November and will provide highly competitive housing for our growing chapter there. At another premier southern cam-pus, the University of Mississippi (Mississippi Alpha), a core group of alumn have worked saive the charter

was withdrawn in 1976 to re-establish was withurawn in 1976 to reestablish that chapter. This goal became a real-ity with the development of a Sigma Epsilon Chapter (colony) last spring. but fraternity housing is critical to survival on that campus Working closely with National Director and past National Housing Corporation President Michael C Williams, Mem-phis State '69, the local alumni corporation purchased an existing fraternity house that sleeps 44 men. It was com-pletely renovated and the new Sig Ep napter moved in this fall. Other major project major projects include

Washington State (Washington

Alphal-Expansion and the complete renovation of the interior of the ex-

renovation of the interior of the ex-isting chapter house Southern Mississippi (Missis-sippi Gammal—The construction of a chapter house on the university's new fratermty row.

Michigan (Michigan Alpha)-

Demolition of an annex in order to ex-nand and renovate the existing house.

Alumni boards are running into two major obstacles in a growing number of localities. Those difficulties are strict zoning regulations and securing first-mortgage funds In several situations, our chapters

must overcome zoning changes or remust overcome zoning enanges or re-strictions in order to operate chapter houses. This problem has been in-creasing recently as more communi-ties are opposing the expansion of Greek systems into established neigh-borhoods. The only way this problem can be corrected is by proving we can be valuable and conscientious neigh-

of mortgage lenders to commit large sums of money on long terms for fra ternity housing. Some reasons

Limited marketability of traternity houses should a chapter close Heavy wear and tear on the physical plant from high-volume use

Concern for long-term financial stability and cush flow to meet mort

stability and cash flow to meet more gage pay ment schedules. Stable chapter alumn: corporation hoards can go a long way to alloy some of the lendors' feurs. The Na-tional Housing Corporation of Sigma Phi Epsilon, however is exploring vaolutions to this and is develop ing a long term program to addre

New chapters

Five chapters chartered; six more on the way

By Christopher L. Bittman Chapter Services Director

Broadening the base of Sigma Phi Epsilon through the development of new chapters continued to be a strength for the Fraternity this past

There were 246 new brothers added to the rolls as founding fathers this year at Creighton University in Omaha, Nebraska; Floride International University in Miami; the University of South Alobama in Mobile; the State University of New York at Albany; and Albright College in Reading, Pennsylvania. There were 246 new brothers added

"A year and a half of hard work and dedication finally paid off when we could call each other 'brother,' " said Allen Silinsky, SUNY-Albany '89, one of the new brothers at the New Omicron Chapter.

Silinsky joined 36 other men in bringing Greeks back to the Albany campus. Fraternities were banned by

only recently been allowed to return Our new Florida Nu Chapter a our new Florida Nu Chapter at Florida International University has the highest grade point average on campus, and the largest membership with 61 men. They also recently initiated University President Maidique.

record of success is con new chapters. All Sigma Epsilon Chap-ters must meet the following stringent requirements for chartering

Outstanding traditions

48 Chapters have initiated more than 1,000

There are 48 chapters which have initiated at least 1,000 men since their founding These are the chapters working with the greatest alumni base among the Fraternity's chapters—the ones with the most initiates have produced the most alumni

The youngest chapter in this category is the Ball State University (Indiana Gamma) chapter, chartered in 1953. It has initiated 1,222 men since that time School (founded) Designation Total Initiates Texas (1930) Texas Alpha Florida (1925) Colorado State (1915) Florida Alpha 1706 Colorado Gamma Purdue (1905) Indiana Alpha 1679 Nebraska Alpha Alabama Alpha Auburn (1908) Oklahoma State (1920) Oklahoma Alpha Tennessee Alpha Tennessee (1913) Colorado (1904) Colorado Alpha 1460 Ohio Northern (1905) Ohio Alpha Delaware Alpha Michigan Alpha Michigan (1912 Oregon Alpha West Virginia Be New York Alpha Oregon State (1918) West Virginia (1903) 1395 ma na Beta Syracuse (1905) Illinois Alpha Washington Beta Illinois (1903) Washington (1922 Kansas State (1918) Washington State (1912) Koncas Rota Washington Alpha Indiana Beta

Focus on alumni

New programs and guidance for 1.700 alumni volunteers

By Joseph W. Langella Jr.

While chapter counselors continue to be the Fraternity's most critical liaison at the chapter level, training programs originally designed ex-pressly for counselors are now involvpressly for counselors are now involv-ing all fraternity volunteer officials at the chapter level.

Keeping 253 chapters steffed with trained counselors and alumni board officers has posed stiff challenges in the past. The Fraternity invests a great deal in providing resources for volunteers to better perform their du-

ties.

There were 95 counselors who took time away from busy August work schedules to participate in the counselor program at the New Orleans Conclave.

 A totally new counselor develop-ment program was implemented at Regional Leadership Academies, in-viting feedback on Fraternity programs and presenting approaches to Fraternity work. The program is mod-ified annually to meet changing needs and to offer e consistency in training and opportunities.

 A significant portion of travel expenses and registration and materiexpenses and registration and materi-als costs are absorbed by the Frater-nity to assure all volunteers are afforded training opportunities.

Regional directors receive inten-

sive training in working with volun-teers and devote a significant portion

of their time to assisting volunteers

Publications are distributed by the Headquarters to keep volunteers abreast of the campus issues and Fraternity concerns.

A risk management video pro

A risk management video pro-gram that presented ways to control risk and provide better environments for members was produced and dis-tributed to alumni boards.

☐ A comprehensive alumni manual has been written, encompassing the work of volunteers at every level.

The manual

The new alumni manual was originally drafted as a counselor's guide. It all to request Resource Corps into was introduced at the 1987 Regional mation and have their name added.

Leadership Academies for counselors to review and comment on. Their re-sponse: "Great idea—we want to use

this with our alumni boards too."

Back on the drawing board, the focus was broadened to make the new guide useful for district governors, alumni board presidents, alumni board treasurers and others. The new manual covers everything from expec-tations for quality chapter operations tations for quality chapter operations to detailed explanations of issues re-garding liability risk management. The final product, The Sigma Phi Epsilon Volunteer Guide, is the cor-Epsilon Valunteer Guide, is the cor-nerstone of the Fraternity's volunteer training. The new guide will provide valuable assistance as alumni come forward to fill important volunteer po-sitions. It provides a consistent, comprehensive orehensive resource to prepare

Volunteer staff: 1.700

Volunteers are a vital element to the operation of Sigma Phi Epsilon. Each chapter has a chapter counselor, and chapter has a chapter counselor, and usually at least five members on its alumni corporation board of directors. In addition, alumni volunteers work at the district level as district governors and at the national level on as many as 21 various boards and comittees. Consider then, that with 253 chapters, Sig Ep "employs" more than 1,700 volunteers. Sigma Phi Epsilon has remained

young and vibrant in its direction b fresh ideas and energy at each o these volunteer levels. With a "staff these volunteer levels. With a "staff" that size, there is always room for newcomers. The Fraternity draws pri-marily upon its "Alumni Resource Corps" to identify alumni to fill the

many posts. Alumni can use the address label cut-out form on the back of the Jour-nal to request Resource Corps infor-

Mastering an opportunity

Credit cards benefit alumni: provide boost to Fraternity

A new credit card program has produced more than \$10,000 in royalties for the Fraternity in its first year. The for the Fraternity in its first year. The program allows alumni to support the work of the Fraternity with no out-of-pocket expense. More than 2,500 sil-ver and gold MasterCard credit cards, bearing the Sigma Phi Epsilon red heart symbol, have been issued.

The credit card program was de-signed exclusively for Sig Ep. by Richmond, Virginia, based Signet Bank, to be attractive for card users on a nationwide scope For instance the Sig Ep MasterCard:

Carries no annual fee for the first year a person has the card.

Is offered with a competitive an-nual percentage rate on unpaid bal--below the national average and low for a nationwide offering of any card

Also carries generous lines of credit-up to \$10,000 on the gold

Credit cards produced more than \$10,000

The payoff

Sig Ep receives \$1 for each card is sued and \$3 for each card renewal. In sued and \$3 for each card renewal. In addition, Sig Ep receives 1.5 percent of the amount of all purchases made on a Sig Ep MasterCard. Those funds. \$10,000 in the first year alone, are set iside for the educational activities of

the Fraternity
Sig Ep will continue to offer the cards through biannual mailings to alumni It has provided a great way for brothers to contribute to the work or ordiners to contribute to the work
of the Fraterinty while receiving
great benefits at no additional cost.
For undergraduates, the credit card
program has provided a chance to
pridently establish credit.

Members can contact Sig Ep Head-quarters for additional information on the credit card program.

Just the facts:

Offering the best attracts the most: 33 over 100

In the 1986-87 academic year, Sigma Phi Epsilon set its fifth year of records for the number of men pledged and initiated in a school year by a college frater-

Sig Ep chapters have focused their efforts on providing the best possible col-ge experience for their members. The result of their attention to quality shows m the pledging results.

A year ago, we reported on 29 chapters that had 100 or more members at the close of the 1986 school year. The list below recognizes 33 chapters which attained that distinction this year More important than their size is the fact that each is an outstanding chapter on its campus

Honoring academic excellence

Competition scholarship winners announced

By Charles N. White Jr. Executive Director Sigma Phi Epsilon Educational

The Sigma Phi Epsilon Educational Foundation has awarded \$1,000 National Competition Scholarships to 10 undergraduate brothers of the Fraterinty. More than 100 undergraduate brothers entered the 1987 competition, all are outstanding representatives of Sigma Phi Epsilon. The ten recipients were selected by a national competition. were selected by a national competi-tion committee, which included George J. Ablah, a 1955 University of Kansas alumnus. Brother Ablah is a real estate developer and entrepreneur real estate developer and entrepreneur with investments in a diversified range of interests. William K. Emerson, a 1948 alumnus of the San Diego State University chapter, also served on the committee. Borbet Einerson is curator in the Department of Invertebrates of the American Museum of Natural History in New York. He was one of the recipients of the Sigma Phil Epsidem for distinguished cancer achievement at the New Orleans Conclude.

At the meeting of the Foundation Trustees held in conjunction with the New Orleans Conclave, the natio competition program was expanded for 1988 to 15 \$1,000 National Compe-

tition Scholarships.
In addition to this scholarship program, \$120,000 has been awarded by the Foundation this year for scholarships, loans, and leadership training of undergraduate members across the

The 1987 Competition Scholars

Four chapter presidents and four chapter vice presidents head the list of the 10 81,000 National Competition Scholarship recipients for 1987.

Scholarship recepients for 1987. Applications were judged on the basis of acedemic performance, campus leadership, reterrity leadership, and overall contribution to the campus community. All Sigma Phi Epsilon undergraduates were eligible to apply prior to the March 1 deadline

Rising to the call

Kansas alumni rebuild

LAWRENCE, Kan.—When Kansas Gamma turned 64 earlier this spring (chartered April 26, 1923), the casual chartered April 26, 1923), the casual passer-by seeing the fire gutted chop-ter house could presume that Sigma Phi Epsilon bad folded in ashes at the University of Kansas. Just two days earlier, while unseasonably warm weather on a Sunday afternoon sent weather on a Sunday afternoon sent many undergraduates seeking out-door activities, an electrical wira overheated, igniting a fire that swept through most of the house.

The fire was discovered shortly after 1 p.m. Members called the fire department, evacuated the few remaining brothers, and attempted to contain the blaze until firefighters arrived. The fire spread too quickly, however. Firefight

spread too quickly, nowever, Firenghi-ers fought back flames for three hours before bringing it under control. The KU alumni board was facing challenges that, luckily, alumni boards are not often faced with. Howboards are not often faced with. How-ever, it does happen. Chapters at the University of Texas, University of Illi-nois, Northern Illinois, and Univer-sity of Alabama bave all been in similar positions in recent years. Sig Eps seem to rise to the occasion and KU would be no exception. Several members of the alumni

Several members of the alumni board were on hand that night for the first of what became a grueling sched-ule of almost weekly meetings. The objective that night: make arrange-ments to house the 70 bomeless hothers. The house was closed for the summer.

The university community re-sponded Other fraternities opened their doors and the university offered housing in vacant on-campus apart ments. Brothers who hived out-of-house doubled up sleeping quarters. The belongings of all but two of the

undergraduates were covered under parents' homeowners insurance poli-cies. A quick plea to alumni brought in more than \$2,000 to assist the two.

While the nice spring weather prob-ably saved brothers from injury or death, it was not a good afternoon to spend with the books. The most critical casualties were the textbooks and class notes—left "safely" on desks and bookshelves that beautiful day to be completely destroyed just days before final exams were to begin.

Some professors were sympathetic, ffering delayed final exam schedules offering for Sig Eps. However, the chapter is working to regain the "Top Quarter" grade standing it lost on the campus of 27 fraternities—a reflection, say

some, of intangible fire damage Housing is critical to fraternity sur-vival at Kansas. Without a house for

freshmen to move into in the fall, rush would be tough. The alumni board was keenly sware of the tall order it

Seizing opportunity

Contractors moved in within the week of the fire to begin the cleanup and demolition. Insurance settlements and major construction projects can take years, but the KU alumni board would defy the odds. "We had already begun planning from major boars removation." said and demolition. Insurance settlements

for a major house renovation," said Dale Seuferling, Kansas '77, a member of the alumni board. "We already knew what we would need and what we wanted so there were no delays for board meetings to look at pro-posals or choose colors or anything. We just plowed ahead at full speed."

There were, however, meetings that would have to be called during busi ness hours, pulling busy executives on the board away from work. There were also hundreds of hours on the telephone with calls to Sig Ep Headquarters, insurance company home of-fices, banks and fellow board members. Any lost hours could stall progress

progress.
Paul Reiger, Kansas '80, was the architect, and Gus Meyer, Kansas '82, and Dan Meyer, Kansas '82, represented the general contractor, Rau Construction, Careful planning and foresight kept supplies arriving at the construction site at a pace to keep construction workers working at break-neck speed

The alumni board seized the opporto make improvements and begin work toward the showcase they had begun to plan before the fire. While begun to pian before the tire. White many on campus had forerast the de-mise of the Sig Ep chapter, under-graduate rush chairmen talked to rushees about a "new" house and pledged 126 men during the summer.

ashing manpower to 113 When school opened in August. just four months after the fire, con-tractors were putting the finishing touches on their masterpiece When KU alumni board members

today are asked who to credit for the miraculous summer construction success, fingers are quickly pointed in every other direction. It was the contractor who understood the gravity of the situation; or it was the architect who kept ahead of the contractors; or maybe it was the attorney on the calls to the insurance company keep-

ing glitches cleared n actuality, it was the team effort

of dedicated alumni who kept the Fraternity abve for 113 students at the University of Kansas.

And they have not stopped This fall they launched a major fund raising campaign to retire the \$185,000 additional debt and to go beyond to make an addition to complete the showcase still on the architect's draw-

ing board

Luckily, not every alumnı board ıs pressed so hard, but on most every Sig Ep campus, there is an alumni board with the commitment like we found this summer at KU Those are the people who make the Sig Ep expe-rience work for 15,000 students in America every year
